Gathering of War Cloud in Far East Adds to General Holiday Dulness.

CALL MONEY IS PLENTIFUL

More Freely Offered Than for Years Past at Same Period of the Year.

(By Associated Press.)
NEW YORK, Dec. 21.—Whatever influences were in operation in to-day's stock market issued in an almost immovable market. The merely sentimental effect of the approach of the holidays may be reckened with to induce part of the dullness. A more substantial factor in to-day's market was the gathering of the war cloud in the far east, which took en go towering an aspect to-day as to read to a general conviction in Wall Street that an early outbreak of hostilities could not be avoided. That considerable issues of new railroad securities are imminent is the general feeling in Wall street and accounts for the lack of response in to-day's stock market to the extraordinarily large farge offerings of sunds.

Money brokers assert that money on

extraordinarily large large efferings of sunds.

Aloney brokers assert that money on rall was more freely offered this morning than at any other corresponding period for many years past. All departments of the money market were affected, sixty and ninety day loans and even thirty day loans being effected at below 6 per cent. wiercantile paper for prime grades also were offered at 5 1-2, thus breaking the bix per cent. rate, which has been deterninedly beid for some time past.

Sentiment was affected by the opinions expressed by eminent banking authorities, when questioned regarding the likelihood of a Russian or Japanese loan finding subscribers here, to the effect that we are likely to need money resources in our own market. There was some heaviness snown by Afelison, on the ground of, its bond issue, and the small grain movement affected this and other grangers to seme extent.

The depression of United States Stoel

bond issue, and the sheet grangers to some extent.

The depression of United States Steel preferred was accompanied by further discussion of the dividend prospect for the stock, and the expression of discouraging opinions as to those prospects.

There was some accumulation of the coalers, attributed to better frade conditions. The speculation in the New York public utilities continued without any new features, and Amalgamated Copperative advancing slightly, reacted sharply with the rest of the market. The closing was dull and sendently steady, but some of the active issues were leavy. Total sades, par value, 41,800,000. United States 2's, 3's and old 4's advanced 1-2, and the new 4's declined 1-4 per cent, on the last call.

Total sales of stocks were 460,100 shares.

NEW YORK, Dec. 21.—Close: Money on ball 3 to 4 1-2 per cent.; closing bid 3: bitered at 3 1-2. Time loans easier; sixty and ninety days 5 1-2 to 6 per cent.; six months 5 to 6 1-4. Prime mercantile paper 5 1-2 to 6. Sterling exchange steady, with actual business in bankers' bill at 434.75 to 34.84.80 for demand, and at 44.81.25 to 34.81.40 for sixty day bills. Poster rates 81.82 and 34.85 1-2. Commercial bills 34.81 1-8 to 4.81 1-4; bar silver 54 1-2; Mexican dollars 42 1-2.

DANVILLIS TOBACCO MARKET.

Danville, Va., Dec. 29, 1903.

Dibreil Brothers give the following review of the Danville tobacco market for the week ending December 18th.

We have had quite large receipts this week and the quality of the tobacco has been a considerable improvement over the week previous. The breats showed a considerable larger quality of wrippers and of better grade. The buyers have been very edger after these, the speculators and manufacturers fall the speculators and manufacturers fall the speculators and manufacturers and the speculators and manufacturers the speculators and manufacturers and the speculators and manufacturers and the speculators are the speculators and manufacturers week the offerings being composed manufacturers week the offerings being composed manufacturers week and better pleased the speculators are very much better pleased than heretofore, and would, no doubt, in marketing their tobacco much more freely if the weather were more favorable. We are glad, however, to note that they gradiaplying good integree the recommendation of the special of the sp
